## Objective

Seeking a challenging and engaging career in a Computer Science related field.

## Work Experience

### MobileUp (Essenza Software)

May 2015-November 2015

Member of a 10-person team to create mobile web solutions for alumni associations. Primarily used JavaScript to create an application for both iPhone and Android users while focusing on ways to use additional software to improve development efficiency.

Primary languages used: JavaScript, SQL, HTML and CSS

### AllofE Solutions

May 2014-December 2014

Member of a 20-person team to create web services for schools. Learned about the development process as well as how to use Git in order to coordinate large programs with a team.

Primary languages used: JavaScript, PHP, SQL and HTML.

### Chick-Fil-A Employee

May 2010-August 2012

Member of a 30-person team. Learned how to work efficiently and effectively in a team and how to deliver the best customer service.

### Second Degree Black Belt (Earned 2011)

1999-2012

Stressed self-discipline, ability to work through obstacles, teach others and work together.

## Education

### University of Kansas

Expected graduation: May 2016

Pursuing a Bachelor of Science in Computer Science at KU GPA of 3.11. Awarded the Jayhawk Generations Scholarship for 4 semesters. Completed 114 hours towards my degree.

#### *Relevant Coursework:*

- Completed: Algorithms, Compiler Construction, Data Structures, Intro to Artificial Intelligence
- Enrolled: Intro to Information & Computer Security, Programming Languages, Information Retrieval

## Skills

- Extensive knowledge and experience in customer service
- Ability to listen to and address customers in a professional and timely manner
- Strong desire to learn the newest technology and systems
- Excellent written and verbal communication skills
- Strong desire to learn new technologies and programming languages
- **Technological Skills**
  - Operating systems: Linux, Windows, and Mac
  - Languages (in order to mastery): JavaScript, C++, HTML, CSS, SQL, Python, Scheme, PHP, Java
  - Mobile Development: Android and iPhone via Cordova
  - Applications: Eclipse, xCode, Webstorm, SourceTree
